

Instead of “How was your day at school?” try...

What did you do that was kind today?

What was your favourite thing that you did at playtime?

What story did your teacher read today?

Did anyone do anything funny in class?

How did someone fill your bucket today?

Who had the best snack today? What was it?

Are you having trouble with anyone at school?

What did you do that was really fun?

What was your favourite class?

Did everyone have a friend at playtime?

What was the best thing that happened today?

Did you help anyone today?

Who did you sit with at lunch/snacktime?

Did anyone have trouble with following the class rules today?

What rule did you think was the hardest to follow?

Did anyone bring anything fun to show and tell?

Did you learn something new?

What was your least favourite part of the day?

Did you learn any new words today?

What did you do in Mandarin/music/PE class?

Did you sing any fun songs today? Can you teach me?

Did you do anything that made you proud?

If you were class teacher what would you teach the kids?

What are you looking forward to tomorrow?
