

HOME SCHOOL LEARNING JOURNEY

Discovery of the World for Preschoolers

EXPLORE THE SOIL

With MapleBear

Take your child to an exploration of the world with MapleBear! These videos in the MapleBear Singapore YouTube channel about Sand, Gravel and Soil are great to work with. The hands-on activities create a sense of wonder and joy that form memorable learning about soil and its vital role in our food supply chain.

MAPLEBEAR SINGAPORE'S YOUTUBE CHANNEL

STEP 1

Listen to the story: Grandmother's Garden

<https://www.youtube.com/watch?v=LNXWEuOmlU&list=PL3IDTKU7J->

STEP 2

Let's Go Digging For Soil!

The journey begins with introducing soil in the garden and the elements of the seemingly humble material. Seriously fun, the edible soil cups will extend the learning into delightful sensorial experience that will make the learning memorable. Afterward, a craft time will help your child build another layer of comprehension about the soil elements. By the end of the learning activities, your child will be able to iterate what soil is and the four layers that form it.

STEP 3

Let's Look at the Soil we Gathered

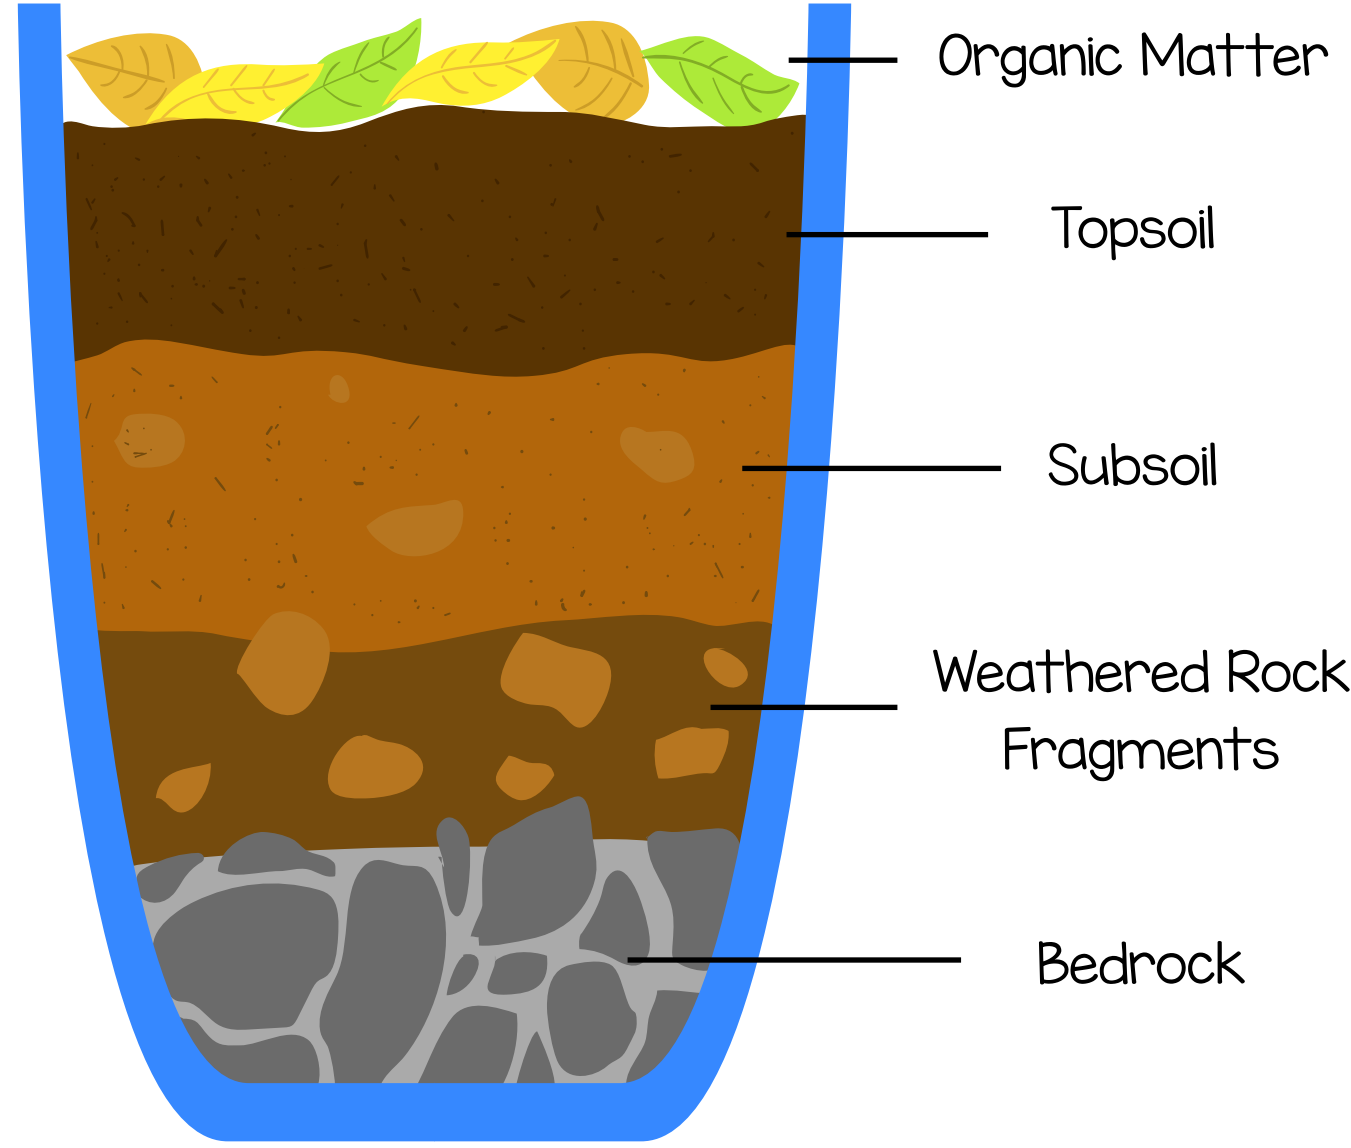

<https://www.youtube.com/watch?v=v5yZk2nAAYk&list=PL3IDTKU7J->

STEP 4

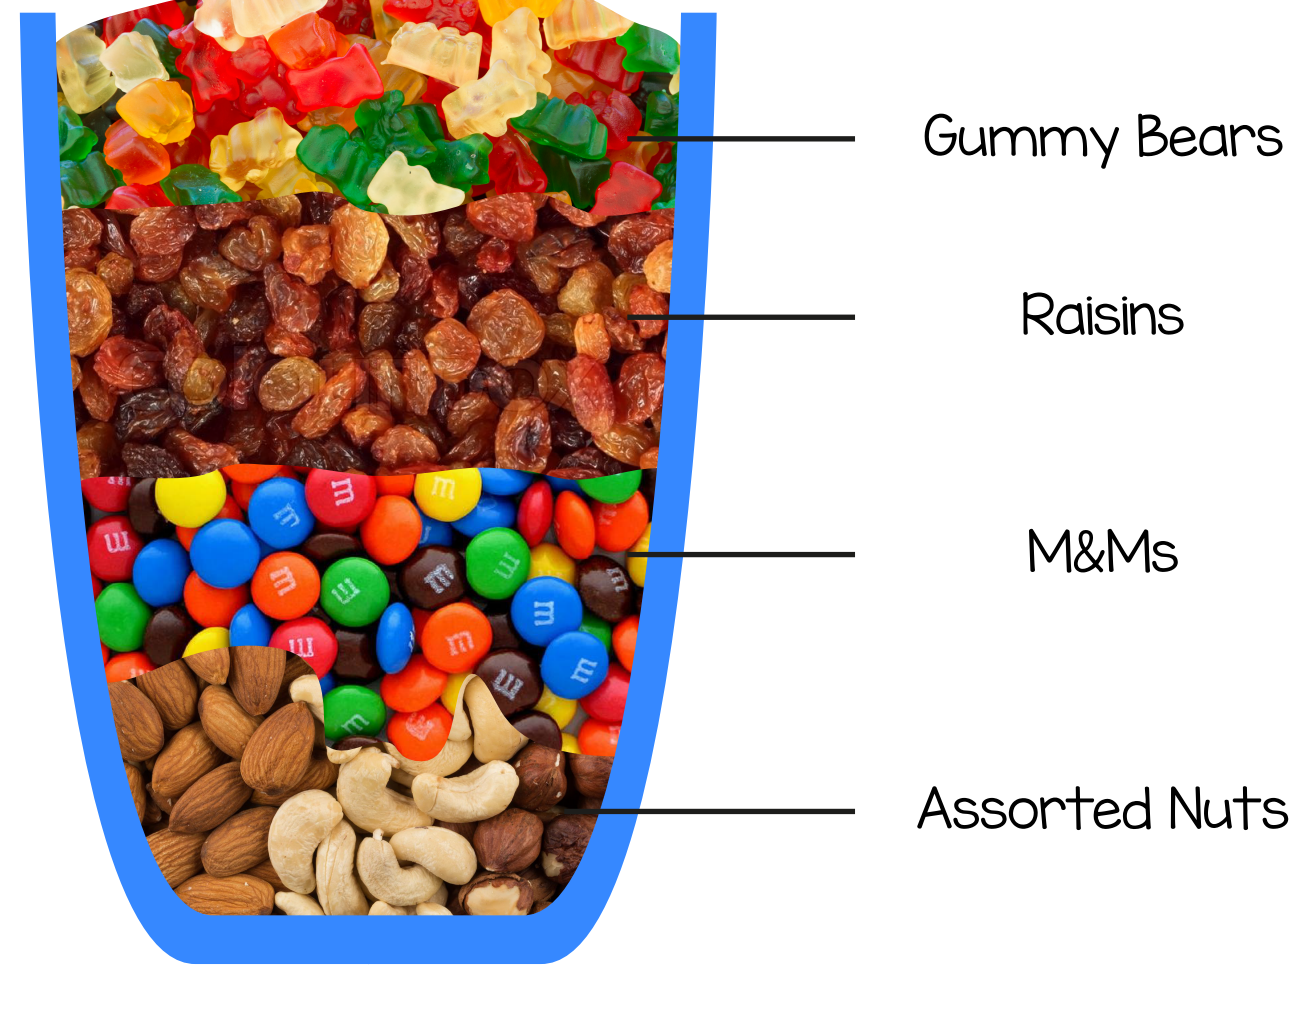

The Different Layers of Soil

The fun they experience along the way may even evoke further curiosity that leads your child to further explorations about soil and our food production: conservation of soil, alternatives to soil in food production and so forth.

STEP 5

Think of how you can recreate the above into interactive, fun, and tasty layers of soil!

This is merely an example of what you could do, please choose food items appropriate for your child's consumption.

This home learning journey will be a wonderful time for your family and ignite the love of learning that sets a good foundation for your child's future!

STAY HOME, STAY SAFE, AND HAVE FUN!
